NOTES ON THE ANNUAL RETURNS

OF THE

HOSPITALS AND DISPENSARIES

IN

ORISSA

For the Year 1939.

The Medical administration of the province was held by me throughout the year under report except for the period from the 21st May 1939, to the 10th September 1939, during which I was absent on leave and Major P. L. O'Neill, I.M.S., remained in charge.

Statement A.—Number of Hospitals and Dispensaries.—There were 175 hospitals and dispensaries on the 1st January, 1939 and the year closed with 174 such institutions. The decrease was due to the fact that there was a closure of two dispensaries, viz., (*i*) the Government Dispensary, G. Udayagiri in the district of Ganjam and (*ii*) the private non-aided dispensary at Rajnagar, Raj Kanika estate, in the district of Cuttack against the opening of a new subsidised dispensary at Tangi in Cuttack district. Of the 174 hospitals and dispensaries at work there were 38 State public, 6 State special, 101 Local Fund, 4 private aided, 9 private non-aided, 8 railways and 8 subsidised rural dispensaries.

Statement B.—Medical Personnel.—The number of different classes of medical personnel employed in hospitals and dispensaries in the province during the year under report is shown below :—

Considerable increase in the Nursing Staff of the Cuttack General Hospital and that of some of the other important District Headquarters Hospitals is engaging the attention of the Government. The provincialisation of some of the Sadr Hospitals, notably the Puri and Sambalpur Sadr Hospitals are also amongst the other important reforms which the Government hope to introduce at an early date.

Statement C and Appendix I.—The total number of indoor and outdoor patients treated in the State Public, Local Fund, Private aided and Subsidised hospitals and dispensaries during the year 1939 is given below together with the corresponding figures of the preceding year :—

Arrangements have been made with the Government of Bihar for the treatment of patients suffering from tuberculosis and mental diseases at the Itki Sanatorium and the Mental Hospital at Kanke (Ranchi) respectively.

There are projects already under the consideration of Government for the construction of a Nurses' Home and a maternity ward for additional 20 beds at the Cuttack General Hospital and the reconstruction of the Sadr Hospital, Balasore. The construction of a new Sadr Hospital at Sambalpur at a cost of Rs. 1,67,620 in a new site was nearing completion.

Medical Schools and Colleges.—There is no medical college in the province but arrangement has been made with the Government of Bihar for the education of students of the province at the Prince of Wales Medical College, Patna. There is a medical school at Cuttack. The annual report on the working of this institution is submitted to Government separately.

One of the notable features of reforms in the province introduced during the year under review with a view to supplement the medical inspection of school children under a separate organisation is the appointment of doctor teachers in some high schools as part of the permanent staff of those schools. This experiment has become popular and with the encouragement and co-operation received from the Education Department it is hoped to extend this scheme to all the high schools in the province in the first instance. The advantage of a doctor teacher being in the staff of a school cannot be over-estimated.
